# ABOUT

since 2014

French electronic music label founded in 2014 by Romain Proust.

Always looking for new sounds and artists influencing the minimal and microhouse scene, Romain focuses mainly on the creation of serious and sincere relationships that last, values that reflect the image of akta, meaning "TRUE".

Today, these 10 years of meetings, sharing and collaborations are the great pride of the label.

- Paul Walter
- Plusculaar
- Premieskiu
- Ramona Yacef
- Romain Proust
- Silat Beksi

# PROJECT

## Streamovies

This new « streamovies » project is launched on the occasion of the release of the vinyl album by Slovak artist Hendriks Toth, scheduled for the end of 2024. Its goal is to promote the artists with whom we collaborate.

The project takes place in an atypical place, located on the heights of the municipality of Séez, in Savoie, France. This site, known as "Planardin", offers a friendly and exclusive setting, allowing you to live a closer and more connected experience to each other.

The name "plan.D" refers to this place called "Planardin" that has hosted the Collectif des Visionnaires since its creation, an association with which we share common values that strives to highlight art and culture for all.
